

Horisont Energi

Arctic Securities Carbon Capture Webinar

Wednesday 10 March 2021

Company Objectives

A top-tier European carbon tech company

1 The carbon storage cost leader

Europe's preferred carbon storage provider

Europe's leading carbon storage asset developer

2 First to market with world scale blue ammonia

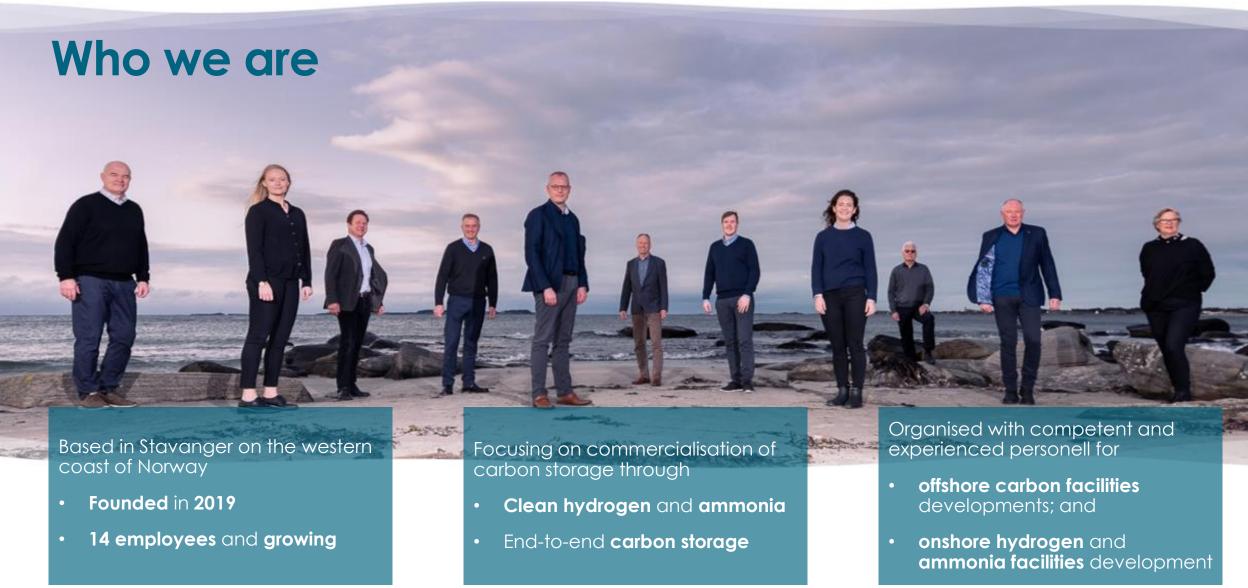

Deliver cost-competitive clean ammonia to the global market

Become the preferred supplier of clean ammonia in Northern Europe

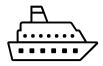

What we do

Developing assets for production of clean ammonia

Developing value chains connecting onshore facilities with offshore storage

Carbon storage

Developing offshore carbon storage assets for fossil and renewable carbon

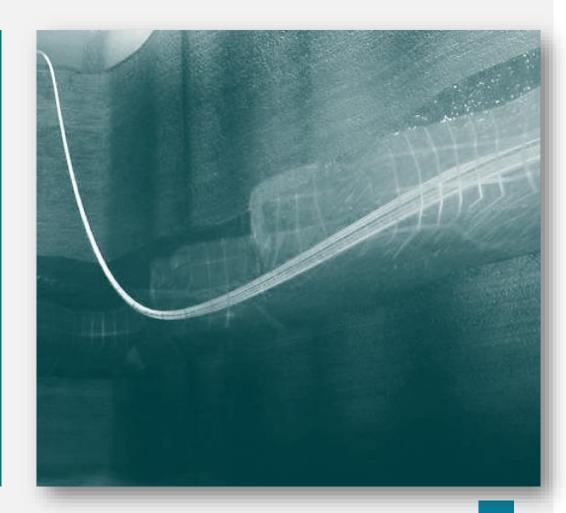

New carbon business models

Commercialising carbon storage

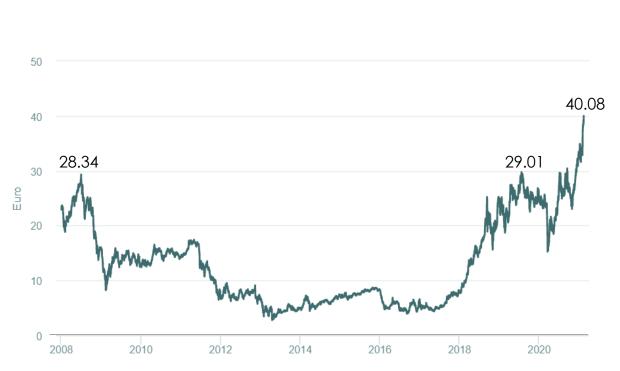

Introduction to CCS in Norway

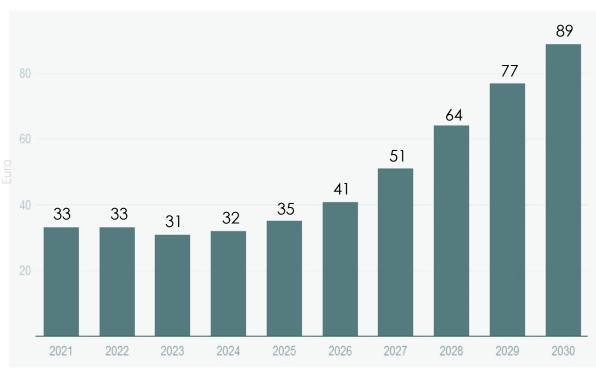

- 1996 Sleipner CO₂ injection started
- 2007 Snøhvit CO₂ injection started
- 2014 Norwegian CO_2 storage legislation for storage of CO_2 from third parties (exploitation licenses)
- 2019 First CO₂ storage license, no EL001 «Aurora», awarded to Northern Lights
- 2019 Resolution to the London protocol opens up for bilateral agreements between countries for transport of CO₂ across national borders
- 2020 First PDO for a CO₂ storage project for third parties, Northern Lights, delivered in Norway

EU Emission Trading System

Our CO₂ Technology

Onshore Control Room

Offshore off-loading system

Power & control cable to shore

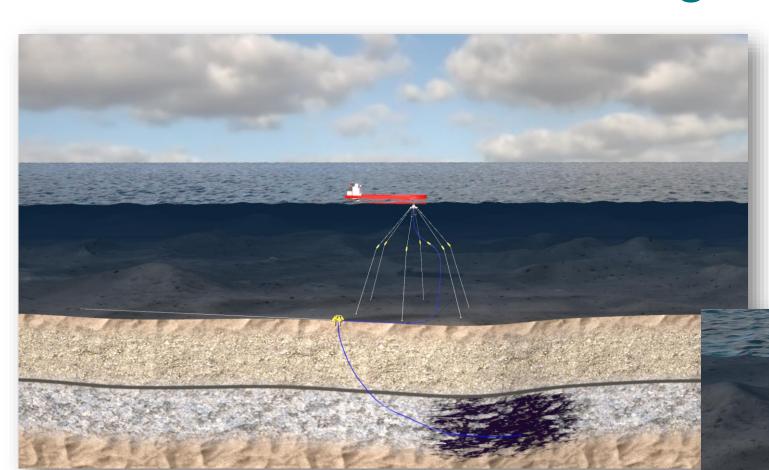

CO₂ injection system

CO₂ injection riser

Polaris – our first carbon storage

- 100 km off the coast
- High quality reservoir
- 2 million tons/yr CO₂ injection capacity in the first phase
- Over 100 million tons of estimated storage capacity

Summary

- The regulatory frames for CCS is established
- We aim to be the carbon storage cost leader
- We have unique CO₂ storage technology reducing risk
- We are developing our first CO₂ storage asset – Polaris
